Tami Fordham

Hi Patty,

I put a session in, "Meaningful Tribal Involvement in Agency Permitting Decisions." I put you down as a speaker and I will need to find a Tribal Leader, **Ex. 5 - Deliberative** The description (draft) is the following:

Ex. 5 - Deliberative

Let me know what you think.

Thanks! Tami

I would be happy to have a session on mining and cover whatever is of interest to the attendees. I just need to know what those topics are and how much time I have. I was thinking that I could discuss some of the regulatory changes related to mining that will affect these projects and how tribes can be involved. But I would really like to hear from the meeting attendees in advance to make sure that the mining session is most helpful. My constraint is that I need to be back in Seattle on Sept. 1, so the mining session would need to be on August 31. Do you think that will be a problem?

- Patty

ps. I will fill out the speaker paperwork on monday.

Subject: Tribal Leaders Summit

Hello Patty -- There is a good deal of communications going on here in Juneau concerning the Tulsequah Chief Mine. I am fielding some questions and comments from several quarters.

I was also in a meeting today to consider having the topic of mining on the agenda for the Tribal Leaders Summit. What would your considerations be about having such diverse mines as Pebble, Kensington, Greens Creek, and others all in the same discussion? Too general?

-- Doug
